### THEY CUT OFF HIS SALARY.

Grain Inspector Blanchard May Be Starved Out Completely.

STATE BOARD MEMBERS DETERMINED.

He is Regarded as a Figure Head and the Old War is Again Revived-Other Lin-

coln Notes.

Lincoln, Neb., Nov. 6 .- [Special to Time Ban. ]-The old war between the State Board of Transportation and Grain Inspector Blanchard has broken out afresh. This time the board has put Blanchard in a state of seige, or in other words, proposes to starve and freeze him out.

Blanchard was appointed by the governor to the position of state ggain inspector, but the board has never taken kindly to him and he has been a subject of condemnation both in the meetings of the board and by the individual members outside of it. They deciared him a mere figure head put up to draw a salary, and therefore went to St. Louis to get what they termed a "competent men to inspect grain" and put him in as assistant. They openly declared in their meetings that as the deputy had to do the work he should receive good pay and fixed his salary at as high a price as

Despite these open stabs at Blanchard, that gentleman has remained in office, and, according to the makeshift for the occasion provided by the board, he had to all appearances been pocketing all money received to apply to his own salary.

According to reports grain inspection at

Omaha has been very lively and there was every evidence that both Blanchard and his deputy would make their salaries out of the fees. Therefore day before yesterday the fees. Therefore day before yesterday the members of the board unanimously passed a resolution that all fees received by the state grain inspector be turned into the state

treasury.

The resolution looked innocent enough on its face, but there is a deep significace in in it. It means that Mr. Blanchard is to be starved out.

There is no provision made by statute for the payment of the state grain inspector and all fees once turned into the state treasury cannot be taken out. At first to meet the emergency the board instructed the inspector to apply the fees to his salary and that of his assistant. But the old antagonism against Blanchard has asserted itself and this only source of revenue has been cut The members of the board smile signifi-

cantly when the matter is mentioned. The establishment of the Harris elevator in Lincoln, the first public warehouse in the state will necessitate the transfer of the state grain inspector, weighmaster and registrar to Lincoln. The members of the board declare that the deputies will have plenty of time to look after the private warehouses in Omaha. This will require Mr. Blanchard to personally inspect the grain here, a thing which the members of the board believe him

incompetent to do. At the meeting of the State Board of Transportation this afternoon the members of the board endorsed the action of the Board of board endorsed the action of the Board of Secretaries in the Pawnee City overhead bridge matter. The Kansas City & Ne-braska Railway company will therefore have merely to build an overhead bridge over their track as far as their right of way on each side. The city will have to build the approaches. There is an intimation that the city attorney will appeal the case to the su-

mr. C. E. Perkins, president of the Chicago, Burington & Quincy railroad, Mr. George W. Holdrege, jr., general manager of the B. & M. Railroad company, and Mr. T. M. Marquette, general attorney of the road, appeared before the board, and it was made to appear that in the event that the suit now pending in the supreme court of the state, wherein the state, upon the relation of the attorney general is plaintiff and the Reattorney general, is plaintiff and the Re-publican Valley & Wyoming Railroad company is defendant, was dismissed the said Re pany is derendant, was dismissed, the said Re-publican Valley& Wyoming Railroad company would complete and put into active opera-tion its line of railroad during the present season, and without delay, as far as Wau-neta, in Chase county, at least. Recognizing the urgent need of said railroad to the people the attorney general was directed to dismiss

said suit without prejudice. Those voting aye were Benton, Hill, Allen, Humphrey and Hastings.

The completion of this railroad means a great deal to the people living in the Repub-lican valley and will be the first railroad con-structed in Nebraska for a year and a half.

SPRINGER DIVORCE CASE. The Springer divorce case was given as airing in the district court today, but the sensational features predicted failed to materialize. Mrs. Mary V. Springer, the plain-tiff, asserted merely that her husband, Matthew E. Springer, who is a traveling representative of the Richardson Silk company of Chicago, received a very handsome salary, but squandered most of it and failed to provide her with the means suitable to her station in life, and she was forced to fall back upon her aged and widowed mother for support She was married July 8, 1888, and had on child. A peculiar feature of the case is that on the evening preceding Mrs. Springer's departure for Iowa to live with her mother

her husband gave a grand lawn fete to a number of friends.

Springer failed to put in an appearance to answer the charges made and the wife was granted a divorce and the custody of the

OUTWITTED A CREDITOR George Bosselman tells with much zes how he managed to thwart the scheme of one of his creditors to get the roll of \$1,500 which he had safe and secure in his inside pocket. This money Bosselman had saved out of the wreck, "because," said he, "I did not propose to walk out of town like a

"When Hargreaves induced one of my clerks to swear out a warrant against me," he continued, "it was without doubt his plan to have me searched at the jail, the money taken from my person and then immediately serve an attachment on the jailer. When I was ar-rested the officers attempted to hustle me off to the county jail without giving me any chance to see an attorney. I finally saw through the scheme, and coming to a standstill I positively refused to go any further until I could consult with an attorney. Seeing that I was very determined the officer granted my reconst. The first lawyer cers granted my request. The first lawyer I thought of was E. E. Brown, the attorney for my wife in the divorce suit. I called him up by 'phone, urging him to be sure to over-take me before I got to the jail. He did so. At the jail I asked for a private interview with the lawyer and it was granted. On being alone with Brown I emptied my pockets of all the money and other valuables I had and side them into Brown's hands. He quietly dumped them into his pocket. When I was searched and nothing found on my person. you ought to have seen the look of astonish ment that came over the faces of the offi

Although Mrs. Bosselman has brought suit for a divorce from her husband he has deeded his splendid home to his wife and put her name at the head of the list of the persons foreclosing mortgages on his store.

Bosselman was arraigned this afternoon before Justice Cochran to answer the charge of criminal intimacy with Miss Lillie Hart. He was found guilty and held to the district court for trial. He furnished bonds for his

THAT RIOT CASE. The long delayed trial of Chief of Police Dinges and almost the entire police force for resisting the writ of replevin on gambling appliances, and which ended in almost the appliances, and which ended in almost the entire demolition of the city vault during a somewhat riotous scene, has been finally decided. It was heard before Justice Cochran and the exciting scenes of that memorable night were rehearsed at length. After hearing all the evidence the jury decided that the policemen had done right in preventing the constable and his posse from seizing, even by a writ of replevia, the confiscated gambling appliances which were being held by the officers.

ODDS AND ENDS. The opening of the new Lansing theater November 23 will be a full dress affair. The theater will be scented with the most deli-cate perfumes and there will be a profusion of flowers. The demand for boxes on that or salon so greatly exceeds the supply that

on Monday evering next there will be an auction sale of the same at the Capital botel.

The Caivert damage case against the city was given to the jury last evening. This morning Henson Calvert was awarded the sum of \$2,000 for the injuries he sustained.

The steam motor will be a thing of the past in a few weeks. The Lincoln Street Railway company has all the material for transforming the line to West Lincoln into an electric

ing the line to West Lincoln into an electric motor system, and work will begin this year yet if freezing weather does not intervene. The Burlington Railroad company has shown that it is in dead earnest with the Havelock shops. Orders have been placed for \$180,000 worth of machinery that will be put in the three big shops now completed at

that point.

The Keane divorce case turned up again this morning. Mrs. Keane wants her hus-band attached for contempt, and punished, and asks also that his answers and cross petitions be dismissed, for the reason that he has falled to obey the order of the court to pay by November 1.850 alimony and attorney fees. Several affidavits are submitted in which her busband is quoted as baving re-

fused to give her any money for her lawyer to get hold of. She avers that she wants something to eat and wear.

Judge J. C. Naylor of Callaway was in the city today. The last time the judge was here was nearly thirty years ago, when he was hunting buffalo and elk. Such a city as Lincoln was not dreamed af then and there was not a house within twenty fix miles. was not a house within twenty-five miles. Owing to the accidental burning of a bridge four miles south of the city all the

afternoon trains were delayed.

Mr. M. E. Schultz has been chosen to fill
the vacancy on the State Board of Pharmacy. The Excelsior band, under the manage-ment of Colonel Charles Crow, serenaded nearly all the successful city and county candidates last night. The state Young Men's Christian associa-

tion convention is now in progress in this city. Over 150 delegates are in attendance. Things of interest to the association are the main subjects of discussion. No other preparation combines the positive economy, the peculiar merit and the medi-cinal power of Hood's Sarsaparilla.

#### THEY'RE AFTER HIM.

Mayor-Elect Bemis Besieged by Countless Applicants for Office. Of all the men in Omaha the one who, at this time, is the most sought after is Hon. George P. Bemis, mayor-elect. Office seekers have swooped down upon him, and from now until January 1 they will make his ife an almost unbearable burden.

Yesterday at 7 o'clock he left his home for the purpose of coming down town to attend to some private correspond-ence that had been reglected. By starting at an early hour he hoped to get his work out of the way before the arrival of his many admirers. His hopes were all in vain, for the office scokers and handshakers were astir and captured the mayor-elect before he was two blocks from his home.

One man wanted to be gas inspector, another wanted to be sewer inspector and so on through the whole list of offices that are to be filled by appointment. Mr. Bemis has made a careful estimate and figures that 974 men have asked for the fifty offices that are

As yet Mr. Bemis has made no promises. He has simply told the applicants to file their requests in writing and then they will be considered when the time comes. In speaking of matters connected with the mayoralty Mr. Bemis said that it was a splendid victory; that it was a general up-rising of the people and a demand for honest city government. The people had spoken, and in a tone that was not uncertain. In connection with this he said: "I was elected by the votes of the better element and I shall give the people a clean administration, and in selecting the officers I shall select only the best and most competent men.'

They Dread Cold Weather.

Persons subject to muscular rheumatism kave good reason for dreading the cold weather of the winter months. They will find much relief, however, if not a permanent cure by applying Chamberlain's Pain Baim. It promptly relieves the pain and in many cases has effected permanent cures. For sale by druggists.

### DUN'S REVIEW FOR THE WEEK

Business Throughout the Country Showi g a Splendid Improvement.

LABOR WELL EMPLOYED EVERYWIERE.

Boston's Bank Faiture Has but Little Effect on the Money Market-Excellent Trade Conditions-Clear-

ing House Statement.

New YORK, NOV. 6 .- R. G. Dun & Co.'s Weekly Review of Trade will say: The failure of the widely known bank of Boston was the striking event of the week, but has caused astonishment rather than disturbance. Withdrawais of money from this point to fortify Boston have caused higher rates. Crops are moving freely, so that it seems scarcely possible that any important monetary disturbances shall arise at present.

Reports from all parts of the country show that the business, though interrupted somewhat by the elections, has been large in volume. At Boston the failure of the Maverick bank caused some uneasiness, but business

continues steady and heavy, no lack of confi-dence is seen and money is easy.

Western reports still show the effect of a phenomenal grain movement. At Chicago receipts of wheat and rye are three times last year's, the increase in dressed beef is 100 per cent, in oats, hides and wool 35 per cent, and in floor 11 per cent, while a de-crease of a third appears in corn, a quarter in barley, one-half in cured meats, some derease in cheese, butter and cattle, while ard receipts are but a quarter of last year's. Sales of dry goods, clothing and shoes are argely in excess of last year, and money is a fair demand. At Milwaukee trade is good, with confidence in all branches, and money is quiet and active. At St. Louis manufac-turing is much stimulated by large crops and noney is easy. At Minneapolis the lumber rade is closing well at stiff prices and the output of flour is 209,000 barrels, against 180,000 last year, while at Duluth receipts of wheat in two months have exceeded those for the whole of last year. At St. Louis increased distribution is observed and exchanges in October was the largest by ₹4,000,-000 in any month in the history of the city. At Kansas City trade keeps in good shape, at Omaha is active and at Deuver improving. At Memphis business is very fair; at New Orleans cotton receipts are heavy; sugar receipts liberal and rice steady. The only cities reporting monetary pressure are Omaha and

Savannah. The iron industry, in spite of the lowest prices ever known for some products, snows no despondency and the demand for manufactured iron and steel does not diminish. Copper trade is just now unsettled, but it s slightly stronger though lead is ower at 4.1 cents. A slight decrease appears in the shipments of boots and shoes from Boston. Trade in dry goods looks a little better; spring woolens are in more demand; the dress goods season is fairly satisfactory and agents have begun to show overcoatings with fair results. Trade in cottons is not just now equal to last year's, but for the whole season thus far it has been considerably larger.

eculation has lifted wheat 154 cents, hough the western receipts continue enormous. Exports for the week thus far are about equal to those of recent weeks.

Corn has declined half a cent, with somewhat increased receipts at the west, and cotton is one-eighth of a cent lower, with very heavy receipts at southern ports. Oil, pork products and hogs are somewhat lower, but coffee is half a cent higher. The general average of prices is a shade lower for the week, and the markets are less embarrassed than usual by cliques maintaining artificial

In the main labor is well employed with few controversies about wages. Throughout the country collections seem to be fair for the season, and, on the whole, gradually improving.

The business failures occuring throughout the country during the last seven days number 200, as compared with a total of 255 last week. For the corresponding week last year the figures were 215.

LAST WEEK'S CLEARINGS.

Gross Exchanges of the Country as Reported by the Banks.

NEW YORK, Nov.6.-The following, furnished by Bradstreet, gives the clearing house rearns for the week ending November 5, 1891, with the percentage of increase or decrease as compared with the corresponding week lust year:

October Weather.

The monthly meteorological summary issued by the local weather office for the month of October shows that the average tempera-

being 31° on the 15th inst.
The total ratefall, during the month was Plans for a Shorter and More Direct Line to The total rainfall during the month was 5.37 inches, which is greatly in excess of the precipitation recorded during the month of October in any year since 1884, when the pro-St. Louis.

LAST NAIL IN THE WOMAN'S BUILDING.

It Will Be of Silver, Driven by Mrs. Potter Palmer with a Ham-

mer From Nebraska-Chicago Gossip.

CHICAGO BUREAU OF THE BEE, CHICAGO, Ill., Nov. 6, Preparations are being made for the immediate construction of two bridges across the Mississippi at Alton to cost \$2,000,000. It is generally understood that the project is being backed by the Burlington system in connection with the Big Four. Theprincipal objects of the enterprise are to connect the eastern and western lines of the Burlington system and to give a shorter and more direct line to St. Louis. The charter cails for the completion of the line within two years. WORLD'S PAIR MATTERS.

Mrs. Potter Palmer is to drive the last nail in the Woman's World's Fair building That has been settled. It has also been determined that this last nail shall be a silver one, contributed by one of the lady managers of Montana. Now comes Mrs. Langworthy, one of the lady managers of Nebraska, who is desirous of contributing the hammer with which the last nail shall be driven. As Mrs, Langworthy is the first applicant her request will probably be

John Boym Tnacher, national commissioner from New York, thinks his state will swing into line with \$30,000 appropriation. Thacher arrived at the Auditorium hotel last night and will remain here several days to attend a meeting of the committee on awards, which assembled today.

less, with a heavy run of cattle, while the local market has a light run and an active market. The South Omaha market contin-A committee representing the fire in-surance interests of the country has asked the grounds committee for space on which to erect a building to constitute an ex hibit of the most improved methods of fir proof construction.

The celebrated whaling schooner Franklin of New Bedford, Mass, is to be one of the heifers that brought \$3, a very respectable price, considering the bad condition of the general cow market. Swift & Co. bought novel attractions of the fair. MONEY MUCH EASTER.

Inquiry at several large nanks of both the state and national classes shows that in the late months very little money has been lonned ures, and no one having really prime cattle need have the least fear that he will not get every cent his cattle are worth on this maron local bonds or stocks, and that the old supply of such collateral has been quite thoroughly cleared up under the easy conditions that have existed since fears of a stringency have vanished. Some of the banks were ready to place funds on the dividend payers. As an example the cashier of a large national institution on LaSalle street expressed his willingness to accept the respec-tive cable stocks at a valuation of 20 to 25 points below the ruling prices of the stock exchange, with the assurance that as rapidly as the volume of trading thereon enlarged more favorable ratings would be conceded. Seventy-five prominent state bankers have organized the bankers association of Illinois.

MRS. FLAHERTY'S DIVORCE SUIT. Rosylpha J. Flaherty against Thomas Flaherty is the unromantic title to a divorce suit filed in toe superior court this morning. The complainant, however, is better known as Mrs. Kimball, the mother of "Corinne," the actress. This is not the first attempt of Mrs. Flaherty to obtain legal separation from Thomas. Her application came before Judge Horton perhaps a year ago. She testified that Flaherty left her five years ago in Boston and came to Chicago to take care of some property interests she had. While the court was considering the evidence a newspaper printed an interview in which Mrs. Kimbali was reported as saying that she came to Chicago solely to get a divorce. The judge noticed the interview and made short work of the case. The new complaint is very brief. ODDS AND ENDS.

Speaking of the result in Ohio, John M. Paimer says: "The election of McKinley was due to the unfortunate silver plank in the democratic platform." The anti-Fifer element among the Illinois republicans is booming 'Long' Jones for the gubernatorial race next year. The movement in his favor in Chi

cago is said to quite strong. Local authorities are much elated over the lecision of the supreme court sustaining the city's claim to the right of way across the Illinois Central tracks. The same issue is involved in regard to a great many other streets, and the road will now be brought to terms

Judgments have been entered by default against Spooner R. Howell, the lumber mer-chant, in favor of the following for the amounts given: John C. Durren & Co., \$1,480; First National bank of Chicago, \$283,125; and another in favor of the same bank for \$276,100. A ten-story office building is to be built on the property adjoining the new

Northern hotel on the east, near the corner of Jackson and Cark streets. Chicago brick manufacturers are said to pe forming a combination to put up prices.
Dr. Loban S. Major of Ridgeland, formerl roprietor of the Major block in Chicago as brought suit against Dr. Kelley for \$10 000 for printing his name in the list of drunkards cured by the Dwight institution Dr. Major was never at Dwight as a patien and as he is a temperance man he seriously objects to the use of his name in such a con

nection.

# The Ideal Baking Powder

### Or. Price's Cream Baking Powder.

For more than fifty years Cream of Tartar and Bicarbonate of Soda have been used for leavening purposes with sufficient flour added to preserve the strength of the powder unimpaired, and this with the addition of whites of eggs comprises this 'pure and wholesome leavening agent, that has been the standard for 40 years. In its use pure, wholesome and delicious food is always assured.

Makes cake and biscuit that retain their moisture, and while they are flaky and extremely light they are fine grained, not coarse and full of holes as made with ammonia baking powders, latter dries up quickly. Alum powders leave a bitter taste in the bread or cake.

Dr. Price's Cream Baking Powder once used, always used.

### ture for the month was 5.0, as compared with 500 during the corresponding month last year and the year before. The nighest temperature during the month was 840, which occurred on the 36th inst., the lowest

This subject interests every man at this time. There has been very little "overcoat weather" this fall. And, though we have sold a large number of overcoats, you will find our winter stock practically unbroken.

### There is so Much Blow and Brag

About "largest stocks" that we will simply ask you to take the elevator to our third floor and then pass your own judgment after using your eyes. You won't have any trouble to use them, either, as it is nearly all glass on two sides, and as bright as noon day (electric light at night.)

#### It is No Dark Garret.

The entire contents of the third floor of our double store is nothing but Men's Overcoats made at our own factory especially for this market and for this season.

There are Meltons, Kerseys and Irish Friezes at prices from

\$8.00 up.

There are ulsters with large collars, shawl collars, fur collars and in any kind of cloth you want.

We ought to mention the fact that there are nobby cape overcoats at prices that will be a revelation to persons who have not

The way all these garments are made is what we want to call your attention to particularly. The seams, the buttons, the trim-mings, the cut, the fit we can give you. We can fit any man, and we can fit him in the particular kind of garment he wants, because of immense supply of them,

### Overcoats for Boys and Children.

In the Children's Department we have children's cape kilt overcoats, sizes 3 to 6 years, \$3.50, \$4, \$5 and up.
Boys' school overcoats, all wool, sizes 7 to 13, at \$4, \$5 and up,
Ulsters with or without cape, sizes 5 to 13, from \$5 up. Boys' and youths' box coats and ulsters, sizes 14 to 18. from \$7.50 upwards

We have all cloths, all makes and all kinds to be found in the east or west, also our own special novelties.
